Pedro Lamounier Sampaio

has successfully completed the online Specialization

Evaluating Large-Scale Health Programs

This specialization will teach learners how to plan and implement effectiveness evaluations of large-scale health programs. It focuses on evaluating health programs in low- and middle-income countries, where routine data are less available and reliable and therefore are often not sufficient to support a rigorous evaluation.

Neff Walker, PhD
Senior Scientist,
Department of
International Health

Agbessi Amouzou, PhD
Professor, Department
of International Health

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
